*Optional Parameters, available on request

TECHNICAL SPECIFICATIONS

BEACONICLYTE⁺

FEATURES

-  **Accurate & Precise measurement**
-  **Long life low maintenance electrode**
-  **User desirable calibration schedule**
-  **Smart reagent kit reactive with electronic chip**
-  **Capacity of 10,000 Patient Results**

Sample Type

Whole Blood, Serum, Plasma, Urine

Menu

Sodium, Potassium, Chloride

Optional Parameters

pH, Ionic Calcium, Lithium

Analysis Time

50 Seconds

Normal Values

Flagging of abnormal results,
Normal values in printout

Calibration

2 point optional; every 4 or 8 hours

Printout

Built in thermal printer

Temperature

Room Temperature, 15°C - 32°C (60°F - 90°F)

Relative Humidity

< 85%, non-condensing

Power Requirements

110 - 240 V, 50/60 Hz (self adjusting)

1.4 Amp Max

Dimensions

H x W x D : 38.5 x 32.5 x 30.5 cm

Weight

6 Kgs (13 lbs) apprx
