TECHNICAL SPECIFICATIONS

BEACONIC
URILYZER⁺

Testing Range
Up to
14 Parameters

Colour
Touch Screen

Throughput
Up to
120 Tests/Hr.

RFID Based
System

HID
Barcode

FEATURES

Reflectance Photometry Principle

Complete Visible Spectrum Detection
(400nm - 700nm)

ACR & PCR Ratio

Colour Display

Wireless LIS (Optional)

Wireless / Wired Barcode
Scanner (Optional)

Local Spare Parts Availability

Low Cost Maintenance

Indigenous Manufacturer

BEACONIC US10 Urine Strips

For qualitative and semi-quantitative detection of
Glucose | Protein | Ketone | Blood | Leukocytes | pH
Bilirubin | Urobilinogen | Nitrite | Specific Gravity

BEACONIC US13 Urine Strips

For qualitative and semi-quantitative detection of
Glucose | Protein | Ketone | Blood | Leukocytes | pH
Bilirubin | Urobilinogen | Nitrite | Specific Gravity
Ascorbate | Creatinine | Micro Albumin

BEACONIC US14 Urine Strips

For qualitative and semi-quantitative detection of
Glucose | Protein | Ketone | Blood | Leukocytes | pH
Bilirubin | Urobilinogen | Nitrite | Specific Gravity
Ascorbate | Creatinine | Micro Albumin | Calcium
